2	management
3	strengthen
4	lessens
5	increasingly -
6	look -
7	tension
8	powerful
9	happiness
10	fitness

WRITING

Time: 30 minutes

Express your opinion on the following quotation:

"Education is a progressive discovery of our own ignorance."

Will Durant (U.S. historian)

Write 150 -200 words.

Remember to

- make an introduction,
- express your personal opinion on the problem and give reasons for your opinion,
- make a conclusion.

Will Durant stated that "education is a progressive discovery of our own ignorance".
The quotation does make sense as when we learn more, we understand just how many things we didn't know before.

Personally, I quite agree with the author. The process of learning and receiving education gives us a point to reflect on our former selves. Understanding that there's always something else to learn is almost a final step of being intelligent, if there even is a final step. As an ancient philosopher has said: "The more I know, the more I understand that I don't know anything."

I don't see how there could be an opposing opinion. People who disagree with the author's statement are either too uneducated or simply are children. A wise man understands his ignorance and seeks to learn even more. A man who is not wise is sure that he knows everything.

Therefore, I believe that learning must never stop. It has been proved numerous times that absolute knowledge is impossible for a man. The person who knows everything is no less than a God.
