WRITING

Time: 30 minutes

Express your opinion on the following quotation:

"Education is a progressive discovery of our own ignorance."

Will Durant (U.S. historian)

Write 150 -200 words.

Remember to

- make an introduction,
- express your personal opinion on the problem and give reasons for your opinion,
- make a conclusion.

I think Will Durant is right
I think so because if a person had to ignore smth/smb he'll have nothing to do, nothing to do in all meanings of this word. But this ignorance can have different reasons, and so does the education. People ^{had} always been learning how to do something, so it is an ^{normal} ^{humanity} process, but a person, who is a genius or who is alone and ⁷⁰ wants to catch someone's attention can start learning something to be either useful and not to be alone. If person is a genius he can easily be an ass as a person but as a scientist he can become a star.

That's how it goes.

Even very-very-very well-known people with brilliant minds could have an even have idiotic ideas, such as alchemy, so the whole world began to learn wrong natural sciences and people became even more idiots

Don't be stupid.

With love
