Part 4.

Taking care of lonely elderly people has always been a problem for many years. Especially these days when the bigger part of population is ^{old} elder people.

Personally, I think that elders must be taken care of. But it can't be done just by anybody. There should be special lessons for people who want to help lonely elders.

Using modern technologies is great but I don't think that they'll be of any help. Elders should be taken care of by other people. By those, who'd support them and talk with them.

In the conclusion I'd like to say that noone should be ever left alone. Those people want social interaction, and not just mere medical help.
