My opinion about libraries.

Library is a good place to find ~~an~~ information about people, history, nature and others.

Libraries are very useful. Pupils can use them to learn some facts or read interesting texts.

Nowadays many people don't go to libraries because of the internet. Internet has more easier and quick ways to find information. That is why I think that the libraries will be not popular in ^{the} future. But also there are ^{an} electronic libraries and you can use them from your phone, computer or tablet, wherever you are. ³⁵

Modern libraries offer a big list of books to their visitors. That is why people don't worry about will they find what they need or not. ²⁶

Nowadays libraries are situated all over the world. People, from towns and villages to cities, can go to them or arrive. My friends and I don't go to libraries, but we think that people need them and without libraries people will be less communicated and will have less knowledge. ⁴⁹

I want to tell to all my readers that libraries are very important for us and we need to use them to get information about what we want to know. ³⁰
