Part 4

We live in the 21 century. It is the century of new technologies, internet and what not. People communicate with each other in the social sites, Find the all information on the "wikipedia" and the teens are also do it. Now, there are few teens, who likes to go to library. The most part prefer to read the book in the internet, and it is bad. I suppose, teenagers must visit the libraries and read the natural books. It is more interesting and useful. As for me, I visit library twice in a month. I like reading books, because they helped me at studying at school. I can find the information, need to me. Besides, they help to push up intellect level. I hope in the future more teens will visit libraries.

Let's read much!
