I agree with the following statement because when a person is ^a child he has not cares. Children walk a lot and they don't need to work, they don't need to earn [✓] because parents buy them all the things that children need. By the way, children have work, but only at home. They should help to clean the ⁵ flat, help parents in other ways. And children must go to school, because every person must have [✓] an education! ⁶

Now I'm a child, but soon I will study in the university, then I will work and then I will have a lot of cares. ¹⁰¹
