I'm agree with the statement that childhood is the happiest time of a person's life because children do not need to think about difficult and important things, they must not work to get money to live, they must not pay for their flat and things because their parents can do this, they don't have big and dangerous problems. Usually people love children, nobody is angry to them.

Childhood is a terrific time, there are a lot of things to learn and time to do this. Many people say that the best memories are memories of the childhood and I'm agree with them
