Well, I think childhood is the happiest time of a person's life. In childhood you don't need to think about your future, about your profession, you don't have any problems, ^{so} your parents solve them. In childhood you don't need to make money, your parents buy for you everything you need. You don't care about ^{any} everything, you just enjoy your childhood. Everything you do is just playing outside with friends, or go to ^{the} kindergarten. You don't have homework, difficult tests and stuff like that in childhood. You have so much free time that you can spend wherever you want. I think that childhood is the best part of our lives.
